

Subject:

ACTION: State Charter School Board Expansion Approval Process

Agenda item type:

Action Item

Recommended Action:

That the committee recommend the Board approve the State Charter School Board's Processes to approve expansion requests.

Background:

Board rule [R277-552](#) requires an authorizer to submit a process to the Board for approval of: 1) a new charter school; 2) a charter school expansion; or 3) a satellite school.

At this time, the State Charter School Board (SCSB) is seeking approval of the SCSB's charter school expansion process. The new charter school process was previously approved. The process for approving satellite schools will be brought before the committee in a future committee meeting.

The Committee will review and consider for approval the State Charter School Board's expansion process.
