

Subject:

DISCUSSION/ACTION: SHARP Survey Resolution

Agenda item type:

Action Item

Recommended Action:

That the committee forward a resolution concerning the SHARP survey to the Board for adoption.

Background:

Since 2003 Utah schools have administered the SHARP Survey as a combined effort to bring together the Utah Prevention Needs Assessment Survey and the Youth Risk Behavior Survey. The Survey is conducted every other year for students in grades 6, 8, 10 and 12. Results of the Survey are used to predict adolescent problem behaviors and to inform programs, deploy resources and to track trends.

The Standards and Assessment Committee will discuss a proposed resolution on guiding principles to be used in development of the Survey.
