

Subject:

ACTION: Implementation of 2020 Programs (Amendments)

Agenda item type:

Action Item

Recommended Action:

That the Board authorize staff to amend Board rules for programs impacted by recent legislative budget cuts by adding the phrase, "subject to appropriations," throughout the impacted rules and authorize staff to then file the updated rules with Office of Administrative Rules.

Background:

Staff will discuss impacts to implementation of 2020 programs due to the budget adjustments approved in the last special session of the Legislature. Because the appropriations related to many programs were cut completely (e.g. [SB 99](#) School Leadership Development Amendments; [HB 67](#) LEA Financial Information Systems; and [SB 93](#), Math and Science Opportunities for Students and Teachers (MOST)), staff are requesting Board authorization to update rules related to programs that were impacted by 2020 [HB 5012](#) and other special session legislation, by adding the phrase, "subject to appropriations," throughout the impacted rules and then filing the updated rules with Office of Administrative Rules (OAR).
